

FOR IMMEDIATE RELEASE

2015 Paving List Released
City of Fairmont releases streets to be paved

FAIRMONT, WV- May 11, 2015- The City of Fairmont has finalized the 2015 paving list to include 51 streets and 3 parking lots. This year's list is the largest since the street maintenance fee took effect in 2011.

Crews will begin paving in the Watson area this year and then head to West Side, Downtown, Bellview, and East Side in that order. 2014 paving began on East Side and ended with Watson and the city rotates the order each year. The streets that are included in this year's list have been cleared by all utility companies as not needed known work, however, some streets may be removed do to unforeseen reasons as the summer progresses.

"We are making great progress with our paving plan and are happy to have more streets this year than in years past," said City Manager Jay Rogers.
